Re: Mariner East 2 Pipeline Construction
Chester County

Dear Governor Wolf:

During a recent meeting with my constituents, I was requested to ask you to determine if Sunoco Logistics is in compliance with any and all applicable regulations regarding emergency response and safety requirements applicable to the Mariner East 2 Pipeline construction project, specifically Title 35.

This type of project involves potential public safety and environmental impacts that may not arise for years. The Mariner East 2 Pipeline passes next to numerous schools, residences, businesses, and community centers, which are frequented by many residents including the elderly and young children so special consideration is warranted.

On behalf of the residents of my legislative district, I urge you to thoroughly review this project to consider all potential public safety and environmental impacts.

Thank you for your attention to this matter and I look forward to your written response.

Very truly yours,
