Council Member Calsolaro introduced the following:

Ordinance Number 19.32.12

AN ORDINANCE AMENDING ARTICLE XIV (SPECIFIC USE REGULATIONS) OF CHAPTER 375 (ZONING) OF THE CODE OF THE CITY OF ALBANY IN RELATION TO NATURAL GAS EXTRACTION

The City of Albany, in Common Council convened, does hereby ordain and enact:

Section 1. Article XIV of Chapter 375 of the Code of the City of Albany is hereby amended by adding thereto a new Section 375-112-a to read as follows:

The Common Council of the City of Albany finds, declares and determines that the exploration for natural gas, the extraction of natural gas and the storage, transfer, treatment or disposal of natural gas exploration and production wastes in the urban environment of Albany poses a significant threat to its residents’ health, safety and welfare. If natural gas exploration or extraction or the storage, transfer, treatment or disposal of natural gas exploration and production wastes were to occur within the City, this activity would endanger the health, safety and welfare of City residents through the deposit of toxins into the air, soil, water, environment and the bodies of residents within the City. Clean air and water are essential to most resources and activities in the Albany area and the quality of the air and the water will be degraded by natural gas exploration and extraction activities and/or the storage, transfer treatment or disposal of natural gas exploration and production wastes and natural gas exploration and extraction activities and the storage, transfer, treatment or disposal of natural gas exploration and production wastes may presently or in the future cause irreparable harm to the City’s water supply, pollution of the water, soil and air, and may cause cancer, lung disease and respiratory diseases. This ordinance is not directed at the regulatory scheme for the operation of natural gas wells under the Oil, Gas & Solution Mining Law of New York State. It only addresses land use and nuisance concerns and the protection of the health, safety and welfare of the people of the City of Albany and the enhancement of its physical environment.

A. “Exploration” shall mean geologic or geophysical activities related to the search for natural gas or other subsurface hydrocarbons including prospecting, geophysical and geologic seismic surveying and sampling techniques, which include but are not limited to core or rotary drilling or making an excavation in the search and evaluation of natural gas deposits.

B. “Natural Gas” shall mean any gaseous substance, either combustible or noncombustible, which is produced in a natural state from the earth and which maintains a gaseous or rarified state at standard temperature or pressure conditions, and/or gaseous components or vapors occurring in or derived from petroleum or other hydrocarbons.

C. “Natural Gas Exploration and Production Wastes” shall mean any garbage, refuse, sludge, or other discarded materials, including solid, liquid, semisolid, or contained gaseous material that results from the exploration, drilling or extraction of natural gas.
D. No person, firm or corporation shall conduct any exploration for natural gas; drill any well for natural gas; transfer, store, treat, or dispose of natural gas exploration or production wastes; or erect any derrick, building, or other structure or place any machinery or equipment for such purpose within the territorial boundaries of the City of Albany.

E. The storage, transfer, treatment and/or disposal of natural gas exploration and production wastes are hazardous wastes within the meaning of this Code. No person, firm or corporation shall engage in the storage, transfer, treatment and/or disposal of natural gas exploration and production wastes within territorial boundaries of the City of Albany. No permit issued by any state or federal agency, commission or board to any person, firm or corporation, which would violate the prohibitions of this Ordinance shall be deemed valid within the City of Albany.

Section 2. This ordinance shall take effect immediately.
