Text of law should be given as amended. Do not include matter being eliminated and do not use italics or underlining to indicate new matter.

County  
City  
**Town of Newfield**  
Village

Local Law No. 1 of the year 2012, a local law to effect a Moratorium and Prohibition Within The Town of Natural Gas And Petroleum Exploration And Extraction Activities, Underground Storage Of Natural Gas, And Disposal Of Natural Gas Or Petroleum Extraction, Exploration, And Production Wastes.

Be it enacted by the Town Board of the Town of Newfield, as follows:

Section 1. TITLE

This Local Law shall be known as the:

**“Moratorium on and Prohibition of Gas And Petroleum Exploration And  
Extraction Activities, Underground Storage Of Natural Gas, and Disposal  
Of Natural Gas  
Or Petroleum Extraction, Exploration, And Production Wastes.”**

Section 2. AUTHORITY AND INTENT; FINDINGS; PURPOSE

A. This Local Law is intended and declared to be consistent with and is adopted pursuant to the authority granted to the Town Board under the New York State

Constitution, and the laws of the State of New York, including but not limited to the following authorities: New York State Constitution Article IX, Section 2(c)(6), 10; Municipal Home Rule Law § 10; Statute of Local Governments §10, Environmental Conservation Law § 17-1101, § 23-0303(2), and § 27-0711, and Public Health Law §§ 228(2), (3).

B. This Local Law is a police power and land use regulation. This Local Law is intended and is hereby declared to address matters of local concern, and it is declared that it is not the intention of the Town to address matters of statewide concern. This Local Law is intended to act as and is hereby declared to exercise the permissive “incidental control” of a land use law that is concerned with the broad area of land use planning and the physical use of land and property within the Town, including the physical externalities associated with certain herein-defined land uses, such as negative impacts on roadways and traffic congestion and other deleterious impacts on a community.

C. The Town Board has found, determined, and made the following declarations of findings:

1. Newfield is a community in the southwest part of Tompkins County that takes great pride in and assigns great value to its rural residential character, small-town atmosphere, high-quality agricultural and forestry land, and scenic and other natural resources. Newfield is located at the divide of two major northeastern watersheds: rain that falls in the Town flows north to feed the St. Lawrence Seaway and south to the Chesapeake Bay.

2. Town residents are dependent upon aquifers and wells for life-sustaining water; maintaining the quality of water resources within the Town is critical to protecting the natural environment of the Town, the general health and welfare of Town residents, and the local economy. Certain of the activities described in Section 4 of the Local Law have the potential to damage surface and ground water resources, in the event of (by way of example) human error, power outages, flooding or other natural disasters, or engineered materials and structures experiencing stresses beyond those for which they were designed. Water pollution is hazardous to the public health. If a domestic water source is contaminated, remediation is time and cost intensive, and may not restore the water resource to a quality acceptable for domestic use. The Town Board believes it is appropriate to evaluate the effectiveness of aquifer protection legislation as one tool to fortify the Town’s water resources from such potential damage, and if appropriate to draft and enact such legislation.

3. Preservation of the Town’s irreplaceable scenic sites, air quality and water quality, and priceless and unique character, is of significant value to the inhabitants of the Town and to the tourists who visit here. Preserving and protecting the agricultural, scenic, recreational, and other natural resources of the Town is important for both a healthy environment and vibrant economy. Aesthetic issues deeply affect the way people feel about a place. They are the

issues that determine people want to live in a town or if not businesses want to locate there. In order to protect such Town assets in the face of significant development pressures, the Town Board believes it is appropriate to identify and designate Critical Environmental Areas within the Town.

4. Allowing the activities described in Section 4 of the Local Law would impair the existing character of the Town, because by their very nature such activities have the potential to produce a combination of impacts upon the environment and people living in or in proximity to the communities in which they are located. Such impacts may include, without limitation, traffic, noise, vibrations, fumes, damage to roadways, light pollution, degradation of water quality, degradation of air quality, decreased availability of affordable housing, damage to and loss of open space, natural areas, and scenic views, adverse effects on wildlife, decreased recreational opportunities, and damage to the tourism industries.

5. If one or more of the activities described in Section 4 of the Local Law are conducted within the Town, traffic generated thereby could be hazardous or inconvenient to the inhabitants of the Town. Roads are a critical public resource and constitute a major investment of the public's money. All Town roads, with the exception of in approved subdivisions, are "highways by use" ( Highway Law engineered or to carry repeated legal . The Town is not in a position to bear the high costs associated with the road use impacts that typically accompany many of the activities described in Section 4 of the Local Law. The Town Board believes it is appropriate to evaluate the effectiveness of road use legislation as a tool to protect the Town's resources from such costs and damage, and if appropriate to develop a road use policy and enact such legislation to protect Town taxpayers from having to shoulder the burden of repairing or rebuilding roads damaged by activities described in Section 4 of the Local Law.

6. The creation, generation, keeping, storage or disposal of Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes (as that term is defined at Section 3 of the Local Law) within the Town could have a negative impact on the public health, safety and welfare of the inhabitants of the Town.

7. The high costs associated with the disposal of Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes (as that term is defined at Section 3 of the Local Law) have in other localities resulted, and could in our Town result, in persons seeking to avoid such costs by depositing such material along roadways, in vacant lots, on business sites, in the private dumpsters of others, or in other unauthorized places. Such activities could pose a hazard to the public health, safety, and welfare of the inhabitants of the Town.

8. Pipelines under 125 psi and less than 6" diameter are presently not regulated by the federal or New York state governments, yet may pose many the same dangers as larger, regulated lines when ruptured, and in any event require a clear zone for reasons of inspection, maintenance, and access. The

Town Board believes it is appropriate to evaluate whether it is advisable to develop a policy to address such otherwise unregulated pipelines, and if so, to enact such a policy.

9. The Town has not been the home of heavy industrial activity in the past. The Town Board believes it is appropriate to evaluate the advisability of developing and enacting legislative standards to ensure that any industrial activity contemplated for the Town take place only if compatible with present land uses and with the Town's soon to be proposed Comprehensive Plan.

10. Evaluation and determination of whether the activities described in Section 4 of the Local Law are appropriate for the Town is a legitimate goal of land use policy and laws. There is no question that exclusion of specified industrial uses is a legitimate goal of such laws:

As the United States Supreme Court stated in *Town of Belle Terre v. Borass*, 416 U.S. 1 (1974):

*the concept of public welfare is broad and inclusive.... The values that it represents are spiritual as well as physical, aesthetic as well as monetary. It is within the power of the [local] legislature to determine that the community should be beautiful as well as healthy, spacious as well as clean, well-balanced as well as carefully patrolled. 416 U.S. at 6.*

And see also *Matter of Gernatt Asphalt Products, Inc. v. Town of Sardinia*, 87 N.Y. 2d 668 (1996), where the Court of Appeals, New York State's highest court, evaluated a claim that a town's prohibition of mining throughout the town was in effect unconstitutional 'exclusionary zoning,' and held as follows:

*We have never held, however, that the ... ['exclusionary zoning'] test, which is intended to prevent a municipality from improperly using the zoning power to keep people out, also applies to prevent the exclusion of industrial uses. **A municipality is not obliged to permit the exploitation of any and all natural resources within the town as a permitted use if limiting that use is a reasonable exercise of its police power to prevent damage to the rights of others and to promote the interests of the community as a whole.** 87 N.Y. 2d at 683, 684 (emphasis added).*

C. The purpose of this Local Law is to provide the Town of Newfield with a period of time to consider, and if appropriate to draft and to enact, one or more local laws to establish industrial site plan review, identify and designate critical environmental areas, develop aquifer protection legislation, develop a road use policy, and/or prohibit the activities described in Section 4 of the Local Law. At this time, it appears to the Town Board that a moratorium of one (1) year duration, coupled

with a mechanism for a ‘hardship exemption’ procedure, will achieve an appropriate balancing of interests between (on the one hand) the public need to safeguard the character and other resources of the Town and the health, safety and general welfare of its residents, and (on the other) the rights of individual property owners or businesses desiring to conduct such activities during such period.

### Section 3. DEFINITIONS

For purposes of this Local Law, the following terms shall have the meanings respectively set forth below:

**Agriculture Use** - Land used for the production of crops and/or livestock and livestock products (as those terms are defined at Section § 301 of the New York State Agriculture and Markets Law).

**Below-Regulatory Concern** - Radioactive material in a quantity or of a level that is distinguishable from background (as that phrase is defined at 10 CFR §20.1003), but which is below the regulation threshold established by any regulatory agency otherwise having jurisdiction over such material in the Town.

**Gathering Line, Or Production Line** - Any system of pipelines (and other equipment such as drip stations, vent stations, pigging facilities, valve box, transfer pump station, measuring and regulating equipment, yard and station piping, and cathodic protection equipment), used to move oil, gas, or liquids from a point of production, treatment facility or storage area to a transmission line, which is exempt from the Federal Energy Regulatory Commission’s jurisdiction under section 1(b) of the Natural Gas Act, and which does not meet the definition of a “Major utility transmission facility” under the Public Service Law of New York, Article 7, §120(2)(b).

**Injection Well** - A bored, drilled or driven shaft whose depth is greater than the largest surface dimension, or a dug hole whose depth is greater than the largest surface dimension, through which fluids (which may or may not include semi-solids) are injected into the subsurface and less than ninety (90) percent of such fluids return to the surface within a period of ninety (90) days.

**Land Application Facility** - A site where any Natural Gas Exploration And/Or Petroleum Production Wastes are applied to the soil surface or injected into the upper layer of the soil.

**Natural Gas** - Methane and any gaseous substance, either combustible or non-combustible, which is produced in a natural state from the earth and which maintains a gaseous or rarefied state at standard temperature and pressure conditions, and/or gaseous components or vapors occurring in or derived from petroleum or other hydrocarbons.

**Natural Gas And/Or Petroleum Exploration Activities** - Geologic or geophysical activities related to the search for natural gas, petroleum or other subsurface hydrocarbons including prospecting, geophysical and geologic seismic surveying and sampling techniques, *but only to the extent* that such activities involve or employ core, rotary, or any other type of drilling or otherwise making any penetration or excavation of any land or water surface in the search for and evaluation of natural gas, petroleum, or other subsurface hydrocarbon deposits.

**Natural Gas And/Or Petroleum Extraction Activities** - The digging or drilling of a well for the purposes of exploring for, developing or producing natural gas, petroleum or other subsurface hydrocarbons, including without limitation any and all forms of shale fracturing.

**Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes** - Any of the following in any form, and *whether or not* such items have been excepted or exempted from the coverage of any federal or state environmental protection laws, or have been excepted from statutory or regulatory definitions of "industrial waste," "hazardous," or "toxic," and whether or not such substances are generally characterized as waste: (a) below-regulatory concern radioactive material, or any radioactive material which is not below-regulatory concern, but which is in fact not being regulated by the regulatory agency otherwise having jurisdiction over such material in the Town, whether naturally occurring or otherwise, in any case relating to, arising in connection with, or produced by or incidental to the exploration for, the extraction or production of, or the processing, treatment, or transportation of, natural gas, petroleum, or any related hydrocarbons; (b) natural gas or petroleum drilling fluids; (c) natural gas or petroleum exploration, drilling, production or processing wastes; (d) natural gas or petroleum drilling treatment wastes (such as oils, frac fluids, produced water, brine, flowback, sediment and/or any other liquid or semi-liquid material); (e) any chemical, waste oil, waste emulsified oil, mud, or sediment that was used or produced in the drilling, development, transportation, processing or refining of natural gas or petroleum; (f) soil contaminated in the drilling, transportation, processing or refining of natural gas or petroleum; (g) drill cuttings from natural gas or petroleum wells; or (h) any other wastes associated with the exploration, drilling, production or treatment of natural gas or petroleum. This definition specifically intends to include some wastes that may otherwise be classified as "solid wastes which are not hazardous wastes" under 40 C.F.R. § 261.4(b). The definition of Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes *does not include* (i) recognizable and non-recognizable food wastes, or (ii) waste generated by Agriculture Use.

**Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes Disposal/Storage Facility** - Any of the following: (a) tanks of any construction (metal, fiberglass, concrete, etc.); (b) impoundments; (c) pits; (d) evaporation ponds; or (e) other facilities, in any case used for the storage or treatment of Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes that: (i) are being held for initial use, (ii) have been used and are being

held for subsequent reuse or recycling, (iii) are being held for treatment, or (iv) are being held for storage.

**Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes Dump** - Land upon which Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes, or their residue or constituents before or after treatment, are deposited, disposed, discharged, injected, placed, buried or discarded, without any intention of further use.

**Natural Gas And/Or Petroleum Support Activities** - Shall mean and be any one or more of the following: (a) Natural Gas Compression Facility; (b) Natural Gas Processing Facility; (c) Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes Disposal/Storage Facility; (d) Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes Dump; (e) Land Application Facility; (f) Non-Regulated Pipelines; (g) Underground Injection; or (h) Underground Natural Gas Storage.

**Natural Gas Compression Facility** - Those facilities or combination of facilities that move natural gas or petroleum from production fields or natural gas processing facilities in pipelines or into storage; the term shall include equipment for liquids separation, natural gas dehydration, and tanks for the storage of waste liquids and hydrocarbon liquids.

**Natural Gas Processing Facility** - Those facilities that separate and recover natural gas liquids (NGLs) and/or other non-methane gases and liquids from a stream of produced natural gas, using equipment for any of the following: cleaning or stripping gas, cooking and dehydration, residual refinement, treating or removing oil or condensate, removing water, separating NGLs, removing sulfur or carbon dioxide, fractionation of NGLs, or the capture of CO<sub>2</sub> separated from natural gas streams.

**Non-Regulated Pipelines** - Those pipelines that are exempt or otherwise excluded from regulation under federal and state laws regarding pipeline construction standards or reporting requirements. Specifically includes production lines and gathering lines.

**Person** - Any individual, public or private corporation for profit or not for profit, association, partnership, limited liability company, limited liability partnership, firm, trust, estate, and any other legal entity whatsoever which is recognized by law as the subject of rights and duties.

**Pipeline** - All parts of those physical facilities through which petroleum, gas, hazardous liquids, or chemicals move in transportation (including pipes, valves and other equipment and appurtenances attached to pipes and other equipment such as drip stations, vent stations, pigging facilities, valve boxes, transfer pump stations, measuring and regulating equipment, yard and station piping, and cathodic protection equipment), whether or not laid in public or private easement

or private right of way within the Town. This includes, without limitation, gathering lines, production lines, and transmission lines.

**Radioactive Material** - Material in any form that emits radiation. This definition specifically includes NORM (naturally occurring radioactive material), but only if such material has been moved from its naturally occurring location through an industrial process. All such material is “radioactive material” for purposes hereof, whether or not it is otherwise exempt from licensing and regulatory control pursuant to the NYS Department of Labor, the US Nuclear Regulatory Commission, the US Environmental Protection Agency, the US Department of Energy, the US Department of Transportation, or any other regulatory agency.

**Radiation** - The spontaneous emission of particles (alpha, beta, neutrons) or photons (gamma) from the nucleus of unstable atoms as a result of radioactive decay.

**Subsurface** - Below the surface of the earth or of a body of water, as the context may require.

**Town** - The Town of Newfield, Tompkins County, New York.

**Town Board** - The Town Board of the Town.

**Transmission Line** - A pipeline that transports oil, gas, or water to end users as a public utility and which is subject to regulation either by: (a) the Federal Energy Regulatory Commission’s jurisdiction under section 1(b) of the Natural Gas Act, or (b) as a “Major utility transmission facility” under the Public Service Law of New York, Article 7, §120(2)(b).

**Underground Injection** - Subsurface emplacement of Natural Gas And/Or Petroleum Extraction, Exploration Or Production Wastes, by or into an Injection Well.

**Underground Natural Gas Storage** - Subsurface storage, including in depleted gas or oil reservoirs and salt caverns, of natural gas that has been transferred from its original location, whether for the purpose of load balancing the production of natural gas or for any other reason, including without limitation short-term, long-term, or intermittent storage for product quality, processing, or transportation purposes, or because of market conditions. Without limitation, this term includes compression and dehydration facilities, and associated pipelines.

#### Section 4. MORATORIUM AND PROHIBITION.

A. 1. From and after the date of this Local Law, no application for a building permit, subdivision approval, certificate of occupancy, or other Town-level approval shall be accepted, processed, approved, approved conditionally, or issued for the construction, establishment, or use or operation of any land, body of water, building, or other structure located within the Town for any of the following: (i) any

Natural Gas And/Or Petroleum Exploration Activities; (ii) any Natural Gas And/Or Petroleum Extraction Activities; or (iii) any Natural Gas And/Or Petroleum Support Activities.

2. From and after the effective date of this Local Law, no person shall use, cause, or permit to be used, any land body of water, building, or other structure located within the Town for any of the following: (i) any Natural Gas And/Or Petroleum Exploration Activities; (ii) any Natural Gas And/Or Petroleum Extraction Activities; or (iii) any Natural Gas And/Or Petroleum Support Activities.

B. The moratorium and prohibition set forth above in Section A. of this Section 4 is not intended, and shall not be construed, to: (i) prevent or prohibit the right to use roadways in commerce or otherwise for travel; (ii) prevent or prohibit the transmission of natural gas through utility pipes, lines, or similar appurtenances for the limited purpose of supplying natural gas to residents of or buildings located in the Town; or (iii) prevent or prohibit the incidental or normal sale, storage, or use of lubricating oil, heating oil, gasoline, diesel fuel, kerosene, or propane in connection with legal Agriculture, residential, business, commercial, and other uses within the Town.

C. This initial term of this moratorium and prohibition shall beginning on the effective date of this Local Law and shall expire upon the earlier of (i) that date which is one year after said effective date, or (ii) the effective date of a duly enacted repeal of this Local Law.

## Section 5. PENALTIES.

A. Failure to comply with any of the provisions of this Local Law shall be an unclassified misdemeanor as contemplated by Article 10 and Section 80.05 of the New York State Penal Law, and, upon conviction thereof, shall be punishable by a fine of not more than One Thousand Five Hundred Dollars (\$1,500) or imprisonment for not more than 10 days, or both, for the first offense. Any subsequent offense within a three month period shall be punishable by a fine of not more than Two Thousand Five Hundred Dollars (\$2,500) or imprisonment for a period of not more than 30 days, or both. For purposes of this sub-Clause A., each day that a violation of this Local Law exists shall constitute a separate and distinct offense.

B. Compliance with this Local Law may also be compelled and violations restrained by order or by injunction of a court of competent jurisdiction, in an action brought on behalf of the Town by the Town Board.

C. In the event the Town is required to take legal action to enforce this Local Law, the violator will be responsible for any and all necessary costs incurred by the Town relative thereto, including attorney's fees, and such amount shall be determined and assessed by the court.

Section 6. 'GRANDFATHERING' OF LEGAL, PRE-EXISTING NON-CONFORMING USES.

Notwithstanding any provision hereof the contrary, any Natural Gas And/Or Petroleum Extraction Activities that are being conducted in the Town as of the effective date of this Local Law shall be subject to the following:

A.1. If, as of the effective date of this Local Law, substantive Natural Gas And/Or Petroleum Extraction Activities are occurring in the Town, and those activities are in all respects being conducted in accordance with all applicable laws and regulations, including without limitation all valid permits required by the New York State Department of Environmental Conservation ("DEC") and all other regulating agencies, then and only then such Activity shall be considered a pre-existing, non-conforming use and shall be allowed to continue, subject, however, to the provisions of Clauses B. and C. of this Section 6.

2. Natural Gas And/Or Petroleum Extraction Activities that are being conducted in the Town as of the effective date of this Local Law and which do not qualify for treatment under the preceding Clause A. 1. of this Section 6 shall not be grandfathered, and shall in all respects be prohibited as contemplated by Section 4 hereof.

B. Upon the depletion of any well that is allowed to remain in operation after the effective date of this Local Law by virtue of Clause A. 1. of this Section 6, or upon any other substantive cessation of Natural Gas And/Or Petroleum Extraction Activities (otherwise grandfathered by virtue of Clause A. 1. of this Section 6) for a period of more than twelve (12) months, then and in such event the non-conforming use status of such Activity shall terminate, and thereafter such Natural Gas And/Or Petroleum Extraction Activities shall in all respects be prohibited as contemplated by Section 4 hereof.

C. Notwithstanding any provision hereof to the contrary, the pre-existing, non-conforming status conferred and recognized by Clause A. 1. of this Section 6 is not intended, and shall not be construed, to authorize or grandfather any Natural Gas And/Or Petroleum Extraction Activities extending beyond whatever well bore is authorized in any DEC permit in existence as of the effective date of this Local Law. Any expansion or attempted or purported expansion shall not be grandfathered

under Clause A. 1. of this Section 6, and instead shall in all respects be prohibited as contemplated by Section 4 hereof.

Section 7. CONFLICTING APPROVALS OR PERMITS WITHOUT FORCE OR EFFECT WITHIN THE TOWN.

Except as contemplated by Section 8 of this Local Law, no permit or approval issued by the Town shall be deemed valid when or to the extent that such activity or activities would violate the moratorium and prohibition set forth at Section 4 of this Local Law.

Section 8. HARDSHIP EXEMPTION.

A. There is hereby established a mechanism by which persons aggrieved by a decision or determination of the Town's Code Enforcement Officer (or other administrative official or body charged with the enforcement of this Local Law) regarding Section 4 of this Local Law may make appeal to the Town Board for a Hardship Exemption from the provisions of said Section 4. The Town Board shall have the power, upon an appeal from a decision or determination of the Code Enforcement Officer or other administrative official or body charged with the enforcement of this Local Law, after public notice and hearing and in accordance with the requirements of law and this Local Law, to consider applications for a Hardship Exemption from the provisions of Section 4 of this Local Law. Applicants for a Hardship Exemption should consult the succeeding provisions of this Section 8, as well as Section 9 of this Local Law, for specification of application requirements and the procedural mechanism involved in consideration by the Town Board of an application for a Hardship Exemption.

B. No such Hardship Exemption shall be granted by the Town Board without a showing by the applicant that enforcement of Section 4 of this Local Law as to such applicant has caused "unnecessary hardship" for purposes hereof. In order to prove unnecessary hardship for purposes hereof, the applicant must demonstrate to the Town Board satisfaction of each of the following four conditions: (i) that, unless the applicant is granted a Hardship Exemption from the provisions of Section 4 of this Local Law, the applicant cannot realize a reasonable rate of return on the entire parcel of property, and such lack of return is substantial as demonstrated by competent financial evidence; (ii) that the alleged hardship relating to the property in question is unique, and does not apply to a substantial portion of the neighborhood or other area in the vicinity of the applicant's property; (iii) that the alleged hardship has not been self-created; and (iv) that the requested Hardship Exemption, if granted, will not alter the essential character of the neighborhood or other area in the vicinity of the applicant's property in an adverse manner.

1. *Reasonable Rate of Return.* In evaluating whether the applicant can realize a reasonable rate of return for purposes hereof, the Town Board shall examine whether the entire original or expanded property holdings of the applicant (as

opposed to only the site of the proposed project) are incapable of producing a reasonable rate of return. No Hardship Exemption shall be granted unless, in addition to satisfying all other applicable provisions of this Local Law, the Town Board finds that the applicant has clearly demonstrated, by detailed written “dollar and cents” proof, the inability to obtain a reasonable return for the entire parcel (and not just the site of the proposed project) unless the applicant is granted a Hardship Exemption from the provisions of Section 4 of this Local Law.

2. *Unique Hardship.* No Hardship Exemption shall be granted unless, in addition to satisfying all other applicable provisions of this Local Law, the Town Board finds that the entire parcel of which the project is a part possesses unique characteristics that distinguish it from other properties in the neighborhood or other area in the vicinity of the applicant’s property. The applicant must demonstrate the unique nature of the parcel as a whole. The fact that the improvements already existing at the time of the application are old, obsolete, outmoded or in disrepair or the fact that the property is then unimproved shall not be deemed sufficient to make the plight of the property unique or to contribute thereto. Exceptional topography is an example of a factor demonstrating the unique nature of the property.
3. *Self-Created Hardship.* The Town Board may find that the applicant suffers from a self-created hardship in the event that the Board finds that (i) the applicant’s inability to obtain a reasonable return on the property as a whole results from having paid too much or from a poor investment decision; (ii) the applicant previously divided the property and is left with only a portion which suffers from some unique condition for which relief is sought and which did not apply to the parcel as a whole; or (iii) when the applicant purchased the property, he or she knew or should have known that the property was subject to this Local Law.
4. *Adverse Alteration of Essential Character of the Neighborhood or Other Area in Vicinity.* In making its determination of whether the proposed project will adversely affect the essential character of the neighborhood or other area in the vicinity of the applicant’s property, the Town Board shall take into account factors that are of vital importance to the citizens of the Town including without limitation: (i) the rural, residential, agricultural and historic character of the Town, (ii) the Town’s irreplaceable recreation, scenic, and tourism sites, (iii) the extent of hazard to life, limb or property that may result from the proposed project, (iv) health impacts, (v) the social and economic impacts of traffic congestion, noise, dust, odors, emissions, solid waste generation and other nuisances, (vi) the impact on property values, and (viii) whether the applicant will use a style of development that will result in degradation to the air quality, water quality or historic, scenic and natural resources of the Town. In order to find that the proposed project does not alter the essential character of the neighborhood or other area in the vicinity of the applicant’s property, the Town Board shall interpret the public interest in said essential character of the neighborhood or other area to require, at a minimum, that the project will not do any of the following: (x) pose a threat to the public safety, including public

health, water quality or air quality, (y) cause an extraordinary public expense, or (z) create a nuisance.

C. In addition to any other application requirements from time to time established pursuant to this Local Law, an application for any Hardship Exemption shall contain a typewritten narrative explaining what the application is for, how the project meets or exceeds all of the criteria for a Hardship Exemption, and inclusion of the following:

1. With respect to a claim that the applicant cannot realize a reasonable rate of return, the applicant shall provide written financial evidence containing reasonable specification of the nature and factual particulars of such claim, including, at a minimum (as to the entire parcel of which the proposed project is a part) specification of the following: (a) the date(s) of acquisition of the property; (b) the purchase price; (c) present value of the property; (d) the amount of real estate taxes; (e) the amount of mortgages or liens and other expenses; (f) the asking price for the property when it had been offered for sale; (g) the costs of demolishing any existing structures on the property; (h) efforts to market the property; (i) a schedule of all other property in common ownership at either the date of the enactment of this Local Law or thereafter; and (j) "dollars and cents proof" such as appraisals, economic studies, and any other such evidence supporting the applicant's contention that the grant of a Hardship Exemption is appropriate.

(For purposes hereof, common ownership means all other interests in property either located within the Town or contiguous to the Town that is held by the any of the applicants (if more than one), whether such ownership is of a legal or equitable interest, in whole or in part, contiguous or not, and whether such property interest is held by any of the applicants through a legal or equitable interest in another corporation, partnership, trust, business, entity, association, fund, joint venture, or individually.)

2. With respect to a claim that, if granted, the requested Hardship Exemption will not adversely alter the essential character of the neighborhood or other area in the vicinity of the applicant's property, the applicant must demonstrate that the proposed project will not adversely affect essential character with regard to physical, economic, social or environmental elements. Examples of adverse impacts to the essential character of the neighborhood or other area include (without limitation) decreased quality or increased quantity of stormwater runoff, increased soil erosion, increased traffic congestion, decreased road quality, impairment of the scenic or rural character of roads, increased noise, dust, odor and/or glare, reduced wildlife habitat, decreased air quality, decreased water quality, impairment of the viewshed, creation of solid wastes, negative impacts on sustainability efforts, increased social costs, increased emergency response times, negative impacts to public infrastructure, decreased property values, and negative impacts on the health of area residents.

D. In addition to all other application requirements from time\_to\_time established pursuant to this Local Law, each application for a Hardship Exemption shall include the following reports in writing as deemed and specified by the Town Board, so as to assist the Town Board in determining whether a grant of the requested Hardship Exemption will adversely alter the essential character of the neighborhood or other area in the vicinity of the applicant's property:

1. Environmental Assessment Form. A completed draft of a Long Form Environmental Assessment Form, Part I, regarding the proposed project.

2. Description of Surrounding Uses. The approximate location of all neighboring residential, hamlet, park/recreational, and/or agricultural areas, all county-designated Unique Natural Areas and locally designated Critical Environmental Areas (if any), all wetlands, intermittent, seasonal and other streams, rivers, and waterways, significant natural communities, endangered and threatened species and species of concern, and historical or archeologically sensitive or mapped areas within a two (2) mile radius of the perimeter of the site of the proposed use.

3. Traffic Impact Report. A traffic impact report containing: (a) the proposed traffic circulation plan, the projected number of motor vehicle trips to enter or leave the site, estimated for daily and peak hour traffic levels, if the Hardship Exemption is granted; (b) existing and proposed daily and peak traffic hour levels as road capacity levels; (c) a determination of the area of impact of traffic to and from the proposed project; (d) the proposed traffic routes to the nearest intersection with an arterial highway, including gross weights and heights of vehicles; (e) the projected traffic flow pattern including vehicular movements at all major intersections likely to be affected by the proposed project if the Hardship Exemption is granted; (f) the impact of this traffic upon existing abutting public and private ways in relation to existing road capacities; (g) a traffic impact analysis of the effects of the proposed project on the transportation network in the Town using passenger car equivalents if the Hardship Exemption is granted; (h) articulation of the effects and impacts of the proposed project on traffic based on existing conditions and projected future background traffic on the state, county, and Town road system if the Hardship Exemption is granted; (i) evaluation of whether the resulting traffic conditions are likely to hinder the passage of police, fire and emergency response vehicles, or degrade the quality of life, and/or otherwise contribute to hazardous traffic conditions if the Hardship Exemption is granted; and (j) determination of whether there is sufficient road frontage so that any vehicle leaving the site may turn into the lane of traffic moving in the desired direction and be channeled within such lane before crossing the nearest intersection or proceeding along the road and any vehicle entering the property may turn out of the nearest lane of traffic without interfering with other traffic if the Hardship Exemption is granted.

4. Road Impact Report. An evaluation of (a) appropriate roadway geometry

including required road widths, bridge widths, starting and stopping sight distances, intersection sight distances, horizontal and vertical curves along the proposed traffic routes; (b) the adequacy of existing pavement structures along the proposed traffic routes to accommodate the full weight load of any trucks and construction vehicles likely to be used in connection with the proposed project if the Hardship Exemption is granted; and (c) impacts to the rural or scenic character of any roads along the proposed traffic route if the Hardship Exemption is granted.

5. Transportation Plan. A description of ingress and egress through the proposed project site through which equipment and supplies will be delivered and which will provide access during and after construction if the Hardship Exemption is granted, and identification of any roads, streets, intersections, bridges, and other facilities along the proposed traffic route that do not meet New York State Department of Transportation standards. Such plan shall describe any anticipated improvements to existing roads, bridges, or other infrastructure, any new road or access construction, measures which will be taken to avoid damaging access/traffic routes and measures that will be taken to restore damaged routes following construction, and measures to maintain the scenic and/or rural characteristics of such roads.

6. Noise Impact Report. A report containing the following: (a) a description of the existing audible conditions at the project site to identify a baseline sound presence and preexisting ambient noise, including seasonal variation; (b) a description and map of sound producing features of the proposed project from any noise generating equipment and noise generating operations that will be conducted in connection with the proposed project site if the Hardship Exemption is granted, including noise impacts from truck traffic travelling within the Town to and from the proposed project; (c) with respect to the noise to be generated by construction and use of the proposed project, the range of noise levels and the tonal and frequency characteristics expected, and the basis for such expectation. (Such report shall cover, without limitation, low frequency, A-weighted, infrasound, pure tone, and repetitive/impulse noise); (d) a description and map of the existing land uses and structures including any sensitive area sound receptors (e.g., residences, hospitals, libraries, schools, places of worship, parks, areas with outdoor workers, etc.) within one mile of the project parcel boundaries. (Said description shall include the location of the structure/land use, and distances from the proposed project, and expected decibel readings for each receptor); and (e) a description of the project's proposed noise-control features, including specific measures proposed to protect off-site workers and mitigate noise impacts for sensitive area receptors.

7. Visual Assessment. A visual presentation of how the site of the proposed project will relate to and be compatible with the adjacent and neighboring areas, within a two mile radius of the perimeter of the site of the proposed project, if the Hardship Exemption is granted. This presentation shall include computerized photographic simulation showing the site during construction and

fully developed and demonstrating any visual impacts from strategic vantage points. Color photographs of the proposed site from at least two locations accurately depicting the existing conditions shall be included. The study shall also indicate the color treatment of the facility's components and any visual screening incorporated into the project that is intended to lessen visual prominence.

8. Report of Natural Gas and/or Petroleum Extraction, Exploration or Production Wastes and Other Wastes. A report containing a description of Natural Gas and/or Petroleum Extraction, Exploration or Production Wastes and other solid wastes, industrial wastes, hazardous wastes, toxic and/or poisonous substances and pollutants (whether or not any such substances enjoy exemption or definitional exceptions from state or federal laws otherwise intended to protect the public with respect to hazardous, toxic, or poisonous substances) expected to be produced, stored, injected, discarded, discharged, disposed, released, or maintained on the project site if the Hardship Exemption is granted.

9. Compatible Uses Report. A discussion of characteristics of the proposed project that may decrease the Town's and/or the neighborhood's (or other area's) suitability for other uses such as residential, commercial, historical, cultural, tourism, recreational, environmental or scenic uses if the Hardship Exemption is granted.

10. Fiscal Impact Assessment. An assessment describing the adverse effects and impacts on Town revenue and costs necessitated by additional public facility and service costs likely to be generated by the proposed project if the Hardship Exemption is granted.

11. Fire Prevention, Equipment Failure and Emergency Response Report. A report containing: (a) description of the potential fire, equipment failures and emergency scenarios associated with the proposed project that may require a response from fire, emergency medical services, police or other emergency responders if the Hardship Exemption is granted; (b) an analysis of the worst case disaster associated with the proposed project if the Hardship Exemption is granted and the impact of such a disaster upon the health, safety and welfare of the inhabitants of the Town and their property; (c) designation of the specific agencies that would respond to potential fires, equipment failures, accidents or other emergencies if the Hardship Exemption is granted; (d) description of all emergency response training and equipment needed to respond to a fire, accident, equipment failure or other emergency, including an assessment of the training and equipment available to local agencies; and (e) the approximate or exact location of all fire, police, and emergency response service facilities within a five mile radius of the perimeter of the site of the proposed use.

12. Public Facilities and Services Assessment. An assessment describing: (a) whether current Town public facilities and services, including water supply, fire protection, school services, recreation facilities, police protection, roads and

storm-water facilities, are adequate for the proposed project (taking into account all other uses that have been permitted or are currently operating in the Town) if the Hardship Exemption is granted; (b) a comparison of the capacity of the public services and facilities to the maximum projected demand that may result from the proposed project if the Hardship Exemption is granted (in determining the effect and impact of the proposed project on fire, police, and emergency services, the review shall take into consideration response times, and the number and location of available apparatus and fire, police and emergency service stations that are manned by full time professional service personnel; and where applicable, calculation of response time shall also include the time it takes volunteer emergency personnel to get to their stations); and (c) a review of the impact of the proposed project on the safety if the Hardship Exemption is granted of all children going to and from school by car, bus, bicycle, and walking during and outside of school zone hours and whether safety measures such as signaled cross walks or elevated sidewalks, green space buffers for pedestrians/bikes where established walking/biking route overlap/run along intended truck routes so as to aid in the prevention of accidents.

13. Property Value Assessment. A property value analysis, prepared by a licensed appraiser in accordance with industry standards, regarding the potential impact of the project if the Hardship Exemption is granted on the value of properties adjoining the project site.

14. Health Impact Assessment. A human health impact assessment identifying ways in which the proposed project could adversely affect the health of Town residents if the Hardship Exemption is granted, and a priority list of recommendations to minimize the potential health impacts of the proposed project. The health impact assessment shall include (a) a risk assessment of possible impact of chemical exposure on the health of residents, including the Chemical Abstract Service number of all chemicals proposed to be used or generated at the project site; (b) an assessment of possible health effects due to industrial operations in non-heavy industrial zoned areas; and (c) an assessment of possible health effects due to community changes including the presence of an industrial activity in a previously non-heavy industrial area, declining property values, impacts to the education system and sudden changes in population numbers, demographics and customs.

## Section 9. HARDSHIP EXEMPTION APPLICATION PROCEDURES; TOWN BOARD CONSIDERATION PROCEDURE.

A. Every application for a Hardship Exemption shall be in writing on forms from time to time prescribed by the Town Board, and shall be signed by the applicant. If

the applicant is not the owner of the property involved, the owner of the property shall nonetheless attest to the accuracy of the statements and representations made in the application, and both the applicant and the owner shall certify that he (or she or it) has undertaken due diligence with respect to the accuracy of the matters contained in the application. Ten copies of the application and supporting documentation shall be filed with the Town Board, accompanied by a fee in the amount set from time to time by resolution of the Town Board. The Town Board is hereby authorized to adopt rules and regulations for the conduct of hearings on applications for Hardship Exemptions, consistent with this Local Law and State statutes.

B. In evaluating an application for a Hardship Exemption, the Town Board shall comply with any applicable provisions of the state environmental quality review act (SEQRA) under Article 9 of the Environmental Conservation Law and its implementing regulations as codified in Title 6, Part 617 of the New York Codes Rules and Regulations, as the same may from time to time be amended.

C. The Town Board shall schedule a hearing on all applications for a Hardship Exemption within 62 days of the filing of a complete application therefor. Said 62 day period may be extended by mutual agreement of the Town Board and the applicant, or whenever required by law, including but not limited to the completion of any required SEQRA procedures. Public notice of the hearing shall be given at least five days prior to the date thereof by publication in the Town's official newspaper. The Town Board may adjourn or continue such public hearing from time-to-time. The cost of sending or publishing any notices relating to any application shall be borne by the applicant, and shall be paid to the Town Board prior to the hearing. At least five days before any hearing on an application for, the Town Board shall mail all notices that the Attorney for the Town may advise are necessary or advisable (such as for example notices to abutters and notices that may be required by Section 239-m of the NYS General Municipal Law).

D. In addition to such other procedures as may be required by applicable law, the following shall apply with respect to the conduct of hearings regarding applications for Hardship Exemptions: (a) the burden of proof shall remain with the applicant to show that he (or she or it) has satisfied the conditions necessary to qualify for a Hardship Exemption, and the burden shall never shift to the Town; (b) any party may appear in person or by agent or by attorney; (c) no decision or determination shall be made except upon consideration of the record as a whole and as supported by and in accordance with substantial evidence; (d) all evidence shall be made a part of the record; and (e) official notice may be taken of all facts of which judicial notice could be taken and of other facts within the specialized knowledge of the Town Board. When official notice is taken of a material fact not appearing in the evidence in the record and of which judicial notice could be taken, every party shall be given notice thereof and shall on a timely request be afforded an opportunity prior to decision to dispute the fact or its materiality.

E. Decisions by the Town Board on applications for a Hardship Exemption shall be

made within 62 days from the close of the public hearing on such matter. The time within which the Town Board must render its decision may, however, be extended by mutual consent of the applicant and the Town Board. The final decision on such matter shall be made by written order signed by the Town Supervisor. Such decision shall state the findings of fact that were the basis for the Town Board's determination. The Town Board's decision as to each application for a Hardship Exemption shall be filed in the office of the Town Clerk no later than five business days after the day such decision is rendered, and shall be made a public record.

F. The Town Board, in the granting of Hardship Exemptions, shall grant only the minimum Exemption that it shall deem necessary and adequate to allow an economically beneficial use of the property, and at the same time preserve and protect the essential character of the neighborhood and the health, safety and welfare of the community.

G. The Town Board, in the granting of Hardship Exemptions, shall have the authority to impose such reasonable conditions and restrictions as are directly related to and incidental to the proposed project. Such conditions shall be consistent with the spirit and intent of this Local Law, and shall be imposed for the purpose of minimizing any adverse impact such Hardship Exemption may have on the neighborhood or other area in the vicinity of the applicant's property. Such conditions may include, but are not limited to, landscaping, lighting, access and egress, signs, screening, location and layout of buildings, and limitations upon the use or characteristics of the use which are reasonably related to the public health, safety and general welfare and as may be necessary to carry out the intent of this Local Law. If the applicant refuses to accept such requirements and conditions, the Hardship Exemption shall be denied.

H. Any person aggrieved by a decision of the Town Board with respect to an application for a Hardship Exemption may apply to the Supreme Court for review by proceedings under Article 78 of the Civil Practice Law and Rules. Such proceedings must be instituted no later than thirty (30) days after the filing of the Town Board's decision in the Town Clerk's office.

I. Any grant by the Town Board of a Hardship Exemption shall expire if a building permit for the proposed project is not obtained by the applicant within one hundred twenty (120) days from the date of the decision granting such Exemption.

J. Whenever the Town Board denies an application for a Hardship Exemption, the Town Board shall refuse to hold further hearings on such or a substantially similar application by the same property owner or his successor or assign for a period of one year following such denial, unless the Town Board shall find and determine from the information supplied that changed conditions have occurred relating to the promotion of the public health, safety, convenience, comfort, prosperity and general welfare and that a reconsideration is justified.

#### Section 10. SEVERABILITY.

If any word, phrase, sentence, part, section, subsection, or other portion of this Local Law, or the application thereof to any person or to any circumstance, is adjudged or declared invalid or unenforceable by a court or other tribunal of competent jurisdiction, then, and in such event, such judgment or declaration shall be confined in its interpretation and operation only to the provision of this Local Law that is directly involved in the controversy in which such judgment or declaration is rendered, and such judgment or declaration of invalidity or unenforceability shall not affect or impair the validity or enforceability of the remainder of this Local Law or the application hereof to any other persons or circumstances. If necessary as to such person or circumstances, such invalid or unenforceable provision shall be and be deemed severed here from, and the Town Board of the Town hereby declares that it would have enacted this Local Law, or the remainder thereof, even if, as to particular provisions and persons or circumstances, a portion hereof is severed or declared invalid or unenforceable.

Section 11. SUPERSEDING INTENT AND EFFECT.

During the time this Local Law is in effect, it is the specific intent of the Town Board, to supersede any inconsistent provisions of any and all other local ordinances, local laws or local resolutions of the Town of Newfield.

Section 12. EFFECTIVE DATE.

This Local Law shall take effect immediately upon filing with the New York Department of State.

I hereby certify that the local law annexed hereto, designated as Local Law No. One of 2012 of the Town of Newfield, was duly passed by the Town Board on \_\_\_\_\_ in accordance with the applicable provisions of law.

I further certify that I have compared the preceding local law with the original on file in this office and that the same is a correct transcript there from and of the whole of such original local law, and was finally adopted in the manner indicated in Section 2 above.

\_\_\_\_\_  
Town Clerk  
Date: \_\_\_\_\_

(Seal)

STATE OF NEW YORK  
COUNTY OF TOMPKINS

I, the undersigned, hereby certify that the foregoing local law contains the correct text and that all proper proceedings have been had or taken for the enactment of the local law annexed hereto.

\_\_\_\_\_  
Guy K. Krogh, Esq.,  
Thaler & Thaler  
Special Counsel for the Town of Newfield  
Date: \_\_\_\_\_
